CARFAX History Impact™

Accidents, service records, number of owners and many other history factors can affect a vehicle's value. The CARFAX History Impact is a tool that analyzes millions of used car transactions to measure how the combination of all the information reported to CARFAX affects the value of a particular vehicle. The vehicle's retail book value plus the CARFAX History Impact will give you a more accurate measure of the vehicle's value. Use this tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1994 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

CARFAX DEPENDS ON ITS SOURCES FOR THE ACCURACY AND RELIABILITY OF ITS INFORMATION. THEREFORE, NO RESPONSIBILITY IS ASSUMED BY CARFAX OR ITS AGENTS FOR ERRORS OR OMISSIONS IN THIS REPORT. Safety Recalls

NHTSA Safety Recalls:

Important: The following recalls were issued for the 2008 MERCEDES-BENZ C300 by the National Highway Traffic and Safety Administration (NHTSA). To find out if a specific 2008 MERCEDES-BENZ C300 still has open recalls that require repair, run a free CARFAX Recall Check or review the **CARFAX Vehicle History Report** results.

Recall date:	Not reported
Units potentially affected:	5,823
NHTSA campaign number:	07V465000
Defective part or component:	SEAT BELTS:REAR
Description:	Certain vehicles fail to comply with some of the requirements of Federal Motor Vehicle Safety Standard No. 208, "Occupant Crash Protection." The rear outboard seat belts do not comply with the lap-belt lockability requirement which enables the lap belt portion of the belt to be locked by the user to facilitate the use of older non-latch design child restraint devices. Under certain circumstances, this situation may cause the locking mechanism not to perform as required by the standard for use with older non-latch child restraints. Dealers will replace all potentially affected seat belts. The recall is expected to begin during November 2007. Owners may contact Mercedes Benz at 1-800-367-6372.
Recall date:	Not reported
Units potentially affected:	404
NHTSA campaign number:	08V303000
Defective part or component:	ELECTRICAL SYSTEM
Description:	Mercedes Benz is recalling MY2006-2008 m-class, r-class, MY2005-2009 slk-class, MY2005-2008 c-class, MY2003-2004 and 2006-2008 clk-class, MY2003-2008 e-class, MY2004 and 2008 cl-class, MY2008 cls-class, MY2004 and 2007-2008 s-class, MY2003 g-class, and MY2003-2004, 2006 and 2009 sl-class vehicles. A software calibration number (scn) coding received on the affected vehicles during a recent workshop visit was incorrect. Depending on the model year and model affected, the results of an incorrect scn coding can affect a number of vehicle safety and emission functions including the following types of functions: (1) the fuel gauge readings may be incorrect; (2) a stuck fuel-level sensor may not be displayed in the instrument cluster; (3) the obd system may cause the check engine light to illuminate incorrectly; and, (4) the speedometer may be out of tolerance. In the event of a vehicle crash, the electrical fuel pump may not receive a crash signal that is required for the fuel pump to disconnect and prevent future fuel delivery as designed. Dealers will recode the scn free of charge. The recall is expected to begin during August 2008. Owners may contact Mercedes Benz at 1-800-367-6372.
